SUMMARY

Undergraduate Software Engineering Student with a growing interest in Front-End Development and UI/UX Design, eager to keep learning and contribute to creating user-friendly digital solutions

EDUCATION

Bina Nusantara University

Sept 2023 - Present

- Bachelor of Computer Science – Software Engineering
- GPA 3.14/4.0, 1st – 4th Semester
- Year of graduate: 2027 *expected*

PROJECTS AND ACTIVITIES

Bina Nusantara University

June 2025 - July 2025

GrocerEase, Front-end Developer – Course Project, Software Engineering, 4th Semester

- Developed a responsive user interface using React and collaborated with the backend team to integrate REST APIs within Git-based workflow
- Built a web-based grocery shopping application enabling users to collaborate on shared carts and manage recurring purchases through monthly cart feature

Techfest 2025 UI/UX Competition

June 2025 – July 2025

Team Leader – *Second Serve Project*

- Designed a mobile application concept called Second Serve, aimed at connecting restaurants with surplus food to people in need, thereby reducing food waste and supporting environmental sustainability
- Developed user flows, wireframes, and interactive prototypes in Figma with a focus on accessibility, while collaborating with teammates through a design thinking approach from problem analysis to prototyping within a competitive setting

Arkavidia 9.0 – UXvidia Competition

Feb 2025 – March 2025

Team Member – *Gotong Project*

- Designed a mobile application concept called Gotong, aimed at connecting volunteers with people in need of assistance, such as the elderly or underprivileged communities
- Conducted user research to identify pain points and developed wireframes, prototypes, and UI components using Figma to ensure usability and accessibility
- Collaborated in a team-based competition setting, applying design thinking methodology from ideation to prototyping within limited time constraints

ORGANISATIONAL ACTIVITIES

HIMTI Binus University

Sept 2025 - Present

Cloud Workshop Bekasi - Event and Technical Coordinator

- Coordinated logistics and scheduling for a workshop on Cloud Computing, Ensuring smooth execution of sessions and active participation from attendees
- Collaborated speakers and technical teams to prepare materials and manage event flow

HIMTI Binus University

May 2025 - Present

HISHOT 2025 – Member of Design and Documentation

- Designed digital and print materials to strengthen event branding while documenting a seminar and activities through photos and videos, as well as editing video content to ensure comprehensive and engaging coverage

HIMTI Binus University

March - May 2025

Software Engineering Seminar - Promotion Coordinator

- Led the promotional campaign for a Software Engineering Seminar with over 300 participants, utilizing social media and direct outreach to maximize awareness and attendance

ADDITIONAL INFORMATION

- Technical Skills: HTML, CSS, JavaScript, C, SQL, Java, Figma, Adobe, Office, GitHub, React Framework
- Fluent in English (spoken and written)
